

Office Nos. 25 and 27 Fourteenth Street.
On Wednesday the Legislature comes together in extra session. "There will be a meeting."

WHEELING is to be well supplied with baseball this season. The home club will play six games on its own grounds.

According to the Almanac, Mr. Camden and Mr. Leach should be nervous about this time. "Republicans, being lookers-on, are serene."

Pittsburgh and Allegheny closed their doors to the distinguished Bostonian, Col. John L. Sullivan, but Wheeling isn't that kind of a town—is it?

The State Senate will not make a mistake to give Col. Peck a chance to fill out his term as Superintendent of the Penitentiary. The institution bears testimony of his good work.

Mr. HENRY H. PENNINGTON leaves to-day for Washington, en route to assume the duties of his commission at Southampton, England. Mr. Pennington is one of Wheeling's brightest young men, and his friends will expect to hear good accounts of him.

The annual concert of the Opera House orchestra is always a notable musical event. To-night's entertainment promises to be the best of an excellent series. The organization reflects credit on Wheeling and deserves a handsome mark of recognition.

Is this region we haven't thought of cyclone insurance, and so the wreck represents so much dead loss to the sufferers. St. Clairsville and Martin's Ferry both need help and ought to have it. Wheeling is near neighbor to both and will, of course, be glad to do what she can, not forgetting how the helping hand was reached out to her when the flood had swept over her.

SENSATIONAL STATEMENT.

Alleged Conspiracy Among the Pan Handle Employees to Cripple the Company.

Pittsburgh, April 16.—Late developments in the Panhandle robbery case are of a somewhat startling nature. It is gradually becoming evident that the prosecution will find it difficult to make out cases against a large number of the men under arrest, and that suits against the company for damages will be the result.

The desperation of the company to secure convicting evidence is evinced in the fact that several of the prisoners have been promised immunity, and that the charges against them will be dropped in consideration of their giving up information necessary to the company in the prosecution of other cases.

Among those who have taken advantage of the company's proposition is C. Longenecker, to whom charges were attached upon his arrest, as a ringleader, and against whom twenty-seven charges were preferred. His bail had been fixed at \$5,000. In consideration of a confession made to-day he was this evening released on \$1,000 bail. Let T. Griffith and St. J. Joyce were this evening released on \$500 bail each. Conductor H. C. Bailey, against whom are eleven charges, was arrested at Dennison, O., to-day.

A sensational report to the effect that the employees of the Panhandle, who have not been arrested, held a secret meeting last night, at which delegates were appointed to decide whether or not a strike should be inaugurated, was this evening emphatically denied.

A strike, it was alleged, was to have been for the purpose of compelling the company to cease making arrests, release the number of the prisoners, and to give the balance an immediate trial.

The confiscated trunks and packages at the detective headquarters were opened this evening, and afterwards, together with dress goods, etc., amounting to several thousand dollars in value, were disclosed.

Railway Mystery Probably Unraveled.

New York, April 16.—The *Tenno* of the World will have a long account of the unraveling of the Railway mystery as made by its reporters.

The victim is Anna Christine Larsen, a Danish girl, who arrived at Castle Garden on the 21st of March last. The body was identified by Count Charles De Zulecki, a Polish refugee, who had been known to her in Danzig. A former lover of the girl, who had been working on a farm near the scene of the murder, left his job two days before the crime was committed, and was not afterwards seen. It is known that a girl had been seen at the scene of the crime, and had been seen to this country with the object of finding him.

Haddock Murder Trial.

Stark City, Ia., April 17.—The jury in the case of John A. Haddock, charged with the murder of Rev. George C. Haddock, discharged and were finally discharged at 1:30 a. m. today. The jury stood eleven for acquittal and one for conviction. Dennis Connolly was the jurymen who stood out for conviction and when the jury was before court he said that his judgment was final. The court then discharged the jury from further service.

Christiana Teacher.

New York, April 16.—A letter from Mr. Gleason was received in Brooklyn yesterday, in which the ex-Premier passes a high eulogy on Mr. Beecher. The letter will not be made public until it appears in the next issue of the *Standard*. Mr. Beecher's family and his friends. The letter is most cordial in tone, of considerable length, and in it the great statesman takes occasion to express his gratification at the death of Mr. Beecher, and his regret that he was not able to see him before his death. The letter is signed "Your friend, Wm. L. Garrison."

Four Thousand Families Destitute.

San Antonio, Tex., April 16.—The local drought committee issued an address this evening announcing that they had received responses to inquiries from different sources, and learned that there were four thousand families in destitute circumstances.

Gleaners are called upon to subvert the money and provisions. Reports from San Antonio and St. Louis are to the effect that great families are leaving the drought-stricken districts each day.
